Course Name: Artificial Intelligence and Ethical Decisions – TRNWEBAIED-875

Course Type: ☒ Webinar   ☐ In-Person Training   ☐ E-Learning

Length of Course/Session: 2.00 hours

Date of Course/Session:

Course Description:
What does artificial intelligence (AI) have to do with ethical decision making? This interactive webinar will explore how decisions get made and the influence that AI is having and could have in the future on the quality of our decisions. What are the implications of artificial intelligence on our decisions? This webinar examines how humans make ethical decisions and the ways that AI may affect decision making. It introduces strategies for improving ethical decisions in the age of AI. 1. Examine the role that emotions and rationality play in ethical decision making; 2. Discuss the impact of artificial intelligence on decision making; 3. Review strategies for improving ethical decisions with artificial intelligence in mind

Speaker Profile:
Crystal Dolliver draws on her professional skills as a facilitator and corporate trainer for over 18 years, with various trainings she offers both in-person and online. Crystal has many areas of expertise including Motivational Interviewing (MI), Ethics, Mental Health First Aid, Suicide Awareness and Prevention and Accessibility in the Workplace (AODA), as well as many other corporate training offerings. Her professional experience in addition to delivering diverse training programs includes assisting individuals to successfully return to work and coaching individuals with disabilities. Crystal is known for encouraging and creating safe learning spaces where warmth, humour, and openness in sharing exists.
